JOHN E. ANTHERS,

*Treasurer*

# Report of Library Trustees

---

*To the Citizens of Rye:*

As indicated in the librarian's report, the book circulation of the past year has far exceeded that of any previous period. There are, however, many of the townspeople who are not patrons of the library and we hope that more will avail themselves of this service. It is one of the privileges of a small library to have few rules and regulations. This freedom, however, depends on the cooperation of the public. We find it necessary to urge a greater feeling of responsibility in the care of books as well as in the observance of the rules for prompt return.

The library building is in excellent condition, necessary repairs having been made in the basement during the summer. An important addition to the library equipment is a new card catalog cabinet, purchased in the fall.

We report two outstanding gifts. From the library of the late Mr. and Mrs. Archibald Finlayson, a collection of sixty books has been presented by the heirs. The Every Other Tuesday Club has offered to provide a mounted globe, and has already given thirty dollars toward the purchase of this valuable means of reference.

To cover the budget for the coming year we ask an appropriation of \$1,000.

Respectfully submitted,

HELEN F. PHILBRICK,  
WILLIAM H. LOCKE,  
JOHN E. ANTHES,

*Trustees.*

## Report of Librarian

*To the Trustees of the Rye Public Library:*

The following is the report of the library for the year 1934:

Number of volumes in 1933.....	8313
“ “ added in 1934.....	582
“ “ discarded in 1934.....	235
Largest circulation .....	439
Smallest “ .....	51
Total .....	15,322
Money from fines.....	\$16.00
“ spent for supplies.....	12.75

The check-up at the last of each month shows by far too many books that have not been returned. The limited finance allows but one copy of a book. In order for the public to have access to the current books, the borrowers are asked to co-operate by observing the two-week rule: All books are allowed to be kept for a period of two weeks, with a privilege of renewing for an additional two weeks. A fine of two cents is charged between openings after this allotted or extended time has expired. Owing to the steady increase in circulation of books, it will be necessary to enforce the two-weeks ruling.

The records show, for example: For the month of January 1935, 927 books were in circulation against 643 for January, 1934. January is usually the dullest of the months. During the summer months the circulation is three times as great.

Several collections of books have been presented to the library, among these a new copy of the History of Rye, given by Mrs. Langdon B. Parsons.

The construction of the curio cabinet makes it a locked receptable and the loan of interesting articles is appreciated.

The addition of a new card catalogue cabinet gives the opportunity of making the card catalogue complete.

Respectfully submitted,

HELEN C. DRAKE,

*Librarian.*

# Report of Trustees of Trust Funds

RYE, N. H., February 1, 1935.

*To the Citizens of Rye:*

The total income during the past year from all Trust Funds has been \$3,323.95, the largest amount yet received in any twelve months. The income of some of the Funds, however, has been less than in previous years, due to a reduction in the dividend rates of the Savings Banks. Four new cemetery trusts have been created during the year.

Beautification and improvement of the cemetery with proceeds of the Dalton Fund has consisted of shrub planting along the main entrance drive and the construction of another section of permanent highway. There will be further planting and additional new road construction the coming year.

As of January 31, 1935, the Trust Funds are invested as follows:

\$17,600.00	United States Treasury Bonds
16,100.00	Town of Rye Notes
26,000.00	Face value Miscellaneous Bonds
2,000.00	Federal Land Bank Bonds
2,000.00	Consolidated Federal Farm Loan Bonds
3,000.00	Joint Stock Land Bank Bonds
2,550.00	Real Estate Mortgage
7,831.93	Rockingham County Banks
1,910.00	Par value Shares of Stock
	35 Shares No-par Stock

Six investments of the Dalton Fund of \$5,000 face value, are in default. The condition of each trust account will be found in the tabulated report and the details of Dalton Fund expenditures in the financial statement submitted herewith.

Respectfully,

SHIRLEY S. PHILBRICK,  
AGNES M. BROWN,  
ELDRED W. MARSHALL,

*Trustees of Trust Funds.*

## Report of School Nurse

Class room inspection.....	264
Individual inspection.....	25
Physical examination by Dr. White.....	132
Dental examination by Dr. Hanrahan.....	132
Weighed and measured.....	264
Defects found.....	104
Teeth.....	73
Vision.....	4
Tonsils.....	24
Speech.....	2
Anemia.....	1
Corrected.....	66
Teeth.....	61
Vision.....	1
Tonsils.....	4

Children taken to hospital.....	3
Children taken to dentist.....	16
Children having hot noon lunches.....	16

Weekly visits are made to the school and more often if necessary.

The state allotted \$32 and the Red Cross spent about \$50 for corrective work.

The state supplies milk to several children and the Red Cross is paying for the hot noon lunches.

The new school building is an added improvement toward the health of the school child.

Children who have had all their teeth treated or as much as could be done at this particular time, a note from their dentist to this effect, placed their name on the dental honor roll. More than 80% of the children have been to the dentist a much larger percent than last year.

Dr. Hanrahan examined the children's teeth without cost. There are more children to be taken to the dentist and more tonsils would have been taken care of but the parents decided to wait until later.

May I take this opportunity to thank the school board, superintendent of schools, parents, teachers and the Red Cross for their co-operation with the health of the school child.

Respectfully submitted,

ANGELA V. DOLBEC, R. N.

# Report of School District Treasurer

---

For School Year July 1, 1933, to June 30, 1934

## *Receipts*

Cash balance July 1, 1933.....	\$1.85
From refund on coal bill.....	18.00
From Selectmen:	
Appropriation for current year .....	17,646.00
Special appropriation .....	3,604.00
	<hr/>
	\$21,269.85

## *Paid*

On orders from school board.....	\$21,197.12
	<hr/>
Balance June 30, 1934.....	\$72.73

AGNES M. BROWN,

*Treasurer of School District.*

---

This is to certify that we have examined the report of the treasurer of the School District and find the same correctly cast and properly vouched.

GEORGE B. ROGERS,  
NEIL B. PHILBRICK,

*Auditors.*

---

On November 15, 1933, the Rye School District received from E. H. Rollins & Sons the sum of \$56,274.64, representing payment in full for the following described bonds: \$56,000.00 4¼% Rye School District, Rye, N. H., School-house Coupon Bonds dated October 1, 1933, due \$3,000.00 October 1, 1934-1949.

\$2,000.00 October 1, 1950-1953 Nos. 1-56 inclusive, of which amount \$56,016.80 represents principal at \$100.03 and \$257.84 represents accrued interest.

This amount, \$56,274.64 was deposited in the First National Bank of Boston.

We, the undersigned, have examined the accounts of the town treasurer and find them correct.

GEORGE B. ROGERS,  
NEIL B. PHILBRICK,

*Auditors.*

# Report of the Superintendent of Schools

---

## *To the School Board of Rye:*

I herewith submit to you my fifth annual report as superintendent of schools:

Civilization must be a process of continual advancement. Change is elemental to progress. No school system can long remain static if it is to train effectively for a changing society. Our task then becomes the preparation of children for an unknown social order. We believe we are doing this more effectively in Rye than at any time in recent years.

Education in ancient times was an individual process. It produced the great scholars of Greece and Rome. It was, however, a costly process and so children were grouped together for instruction as a matter of economy. But group instruction works injustice to two classes of children, those whose minds are inspired by the practical rather than the theoretical and are, therefore, not adept at securing knowledge from the printed page, and those who are unusually gifted in book learning. And so, modern education is trying to adapt its instruction to the individual pupil while compelled to retain class groups. Such procedure requires teachers that are both skilled and trained. Such procedure requires a comparatively large unit and a plant capable of flexible administration. Such a plant Rye now has. Its advantages over the former four school buildings are innumerable. We have started departmentalization of the work of the grades, which is producing superior results. All writing instruction is now in charge of one teacher, all music in charge of another. This leads to uniformity of procedure and method through the entire school life of the child. It is my recommendation that as fast as can be conveniently and efficiently done this division of work be extended into other fields.

Not rarely are pupils found in our schools who have special difficulty with one particular subject. If this is a foundation subject it has heretofore been necessary for these children to repeat the entire grade. This will no longer be true as, in a consolidated school, promotion by subject is entirely possible. We have already entered upon the plan of allowing pupils to progress in the subjects for which they are suitably prepared while repeating those whose mastery is a necessity to a final completion of the work of their grades.

It is unfortunate that the work of the lower grades must be mostly based upon book learning. Frequently children who find difficulty in these grades never come into contact with the manual skills for which they are adapted. For this reason, I hope the time may come in Rye when the manual skills, cooking and sewing for the girls and manual training for the boys, may be extended below the seventh and eighth grades. I believe we would arouse interest in many a pupil to whom school has been an unwelcome or at least an unprofitable institution.

It will be of interest to compare the estimated costs of operating the consolidated school as published in the report of 1933 with the school board's budget as presented to the school meeting of 1934. In the former estimate, making allowance for the sizeable decrease in transportation costs, the cost was given as \$19,344.30. The actual budget presented is now \$500.00 less. A saving of \$400.00 was made by combining the work of the domestic arts teacher and the music teacher. The budget presented in the report of 1932—the last budget before the fire called for \$20,946.00. I believe the consolidated school has proven to be a money saver as far as current expenses is concerned.

The school district of Rye has been fortunate in securing the services of Mr. Arthur N. Gray as principal. He has taken the hitherto scattered groups and unified them into a harmonious school traveling a purposeful path by the best modern procedures. He is taking full advantage of the many benefits derived from the new building. He states that the

play room is in use constantly every school day. Music classes of the upper grades are held here instead of at the pupils' desks. Here are the rehearsals for school programs, operettas and plays. It is used for organized physical exercise, always under the direction of a teacher. As the establishment of health is the second of the cardinal principles of education today, Rye is fulfilling its obligation in this matter. More and more, school assemblies are becoming an integral part of school programs. They are not now a time of recreation but are co-ordinated with the subject matter and contribute vitally to the training of the pupils for adult life. Frequently the entire school is assembled to listen to radio broadcasts of historical, musical and literary programs. These programs are arranged by educators and teachers of national reputation and serve to strengthen the appeal of these subjects to the children. This form of instruction will be used to a greater extent during future years.

The noon period is often a time of disorganization and waste. Such is not the case in your school. Citizenship is taught here in its most practical form. The pupils are learning order and decorum. They are learning to conduct themselves in a socially acceptable manner while eating together. They are learning the lessons of self control and courtesy. Assuredly such lessons are worth while.

Rye is unique among towns for the interest of its citizens in its schools. The various organizations have contributed liberally to the new school by means of valuable and well chosen gifts. The radio, the dishes for the domestic arts department, the piano, the large flag and the Bibles, all presented as gifts to the school, are a source of gratification to all school officials as evidences of cooperation between the adult groups and the children.

The report of the school nurse merits careful reading. It states results accomplished, but it cannot show the hours of work she has devoted to the welfare of our children. Through her efforts, federal money has been secured for the correction of many serious defects. The federal government is again

furnishing milk to underweight children. It is expected that this distribution, to an average of eleven children, will continue throughout the school year. We believe this is a valuable service to the pupils.

Frequently information is sought by former pupils, or by parents of present pupils, as to the work done in our schools during previous years. The same information is always asked whenever pupils move into another school system. It has sometimes been difficult to obtain the required data. For this reason the seven school boards of this supervisory union have purchased a permanent record system to be kept in the superintendent's office. This will keep, in permanent form, a complete record of the work done by each pupil in these towns during the years he attended our schools. Not only will scholastic attainments be recorded, but such information as will help future teachers to understand the pupil, if the latter moves away. Records of health conditions, standardized tests, when properly kept will aid both teacher and pupil to adapt future work to the individual needs. We believe this is an important means of guaranteeing to each boy and girl a consistent rate of progress, free from the delays of adjustment which would otherwise occur with each change of teacher.

I wish again to express my thanks to the school board for continued help and guidance in the duties of my office. It is always a pleasure to visit your schools.

Respectfully submitted,

ROY W. GILLMORE,

*Superintendent of Schools.*

February 11, 1935.

## Report of School Physician

---

The annual school examination showed a gratifying improvement in the physical condition of the pupils and a very satisfactory number of cases in which defects found in last year's examination had been remedied. I think this has been due to the very general co-operation of parents and to the time and effort given by the school nurse in following up such cases and aiding in securing treatment for such defects as we found. As usual the great percentage of defects found was in the condition of the teeth, and I wish some kind of dental clinic could be added to the present health examination so that all school children could have expert advice on what should be done to get their teeth into good condition.

H. A. WHITE, M. D.

*School Physician.*

## Report of School Board

---

The following report begins with the opening of the Consolidated School and it is the desire of your board to avoid repeating information found in the foregoing reports by other agencies.

We wish to acknowledge for the School District the following gifts, which have been greatly appreciated, in the order of their reception: An American flag by Mr. Arthur Wakefield. This flag is used over the front door of our school. An American flag by Mr. Ralph Newton of Portsmouth. This flag is of such dimensions that we hope that in the near future a tall pole may be placed correctly in relation to the building for the use of this flag.

Mr. Paul Haynes presented the school with a piano for the auditorium.

Bibles for the class rooms by the Betsy Ross Council, Daughters of America.

Singer Sewing Machine and a most attractive dinner set by Rye Parent-Teacher Association.

Money from Rye Red Cross to carry on the hot noon lunch found so beneficial to the children.

A Radio Set by the Every Other Tuesday Club, the use of the radio in our school work is new to us, but as the broadcasting of the appropriate subjects develop, much valuable information will be had through this medium.

We regretted very much to accept Dr. Dodd's resignation from your board, but we feel grateful to him for his untiring effort through the construction period of the new building.

Under authority of our state school law, the remaining members of your school board elected Mr. Warren H. Allen to serve as the third member of the board until the next annual meeting of the School District.

It was most difficult to arrange the budget for 1934-35, to

anticipate the rising costs and unexpected demands, one item alone not noted on the budget is fire insurance, carrying out the voice of the School District meeting, following the loss of the Wedgewood School by fire, we have placed \$40,000.00 fire insurance on the Consolidated School Building with contents.

We wish to have the expression of the school meeting as to the desirability of carrying \$40,000.00 insurance more or less.

Transportation costs have been increased, due to the code, therefore exceeding the amount stated in last budget.

The School Grounds — no money was allowed in the building fund or in the budget of 1934-5 for any improvement of the school grounds.

We call your attention to an article in the School Warrant regarding such improvement.

Professor H. S. Clapp, of the University of New Hampshire, has offered the suggestion that his department lay out a program for developing the grounds, in which a sum of money can be appropriated each year until the project is completed.

This is professional advice of the highest order and is the result of experience in the matter of school grounds development.

We herein wish to acknowledge to Professor Clapp our appreciation for his plan of development of the Consolidated School grounds.

Your board has granted the Girl Scouts and the Boy Scouts of Rye the use of the auditorium after school hours one day each week.

We believe that these organizations form a vital part in the making of good citizens when under strong and active leaders, therefore are of great value in conjunction with our school work.

You are respectfully asked to express your opinion in the school meeting as to the continued use of the auditorium by these organizations.

## SCHOOL PROPERTY OTHER THAN THE NEW BUILDING

All playground equipment worth while has been moved and reconditioned; there will have to be some replacements for September, 1935.

The East School with land has been sold for \$1000.00 gross.

A modest amount of fire insurance is carried on the remaining buildings.

We have reason to believe that spring will bring with it some demand for homes and that we can dispose of remaining school property.
